The American Library Association in its Guidelines for the Development of Policies and Procedures Regarding User Behavior and Library Usage states that “there is a significant government interest in maintaining a library environment that is conducive to all users’ exercise of their constitutionally protected right to receive information. This significant interest authorizes publicly supported libraries to maintain a safe and healthy environment in which library users and staff can be free from harassment, intimidation and threats to their safety and well-being.”

“Every public library shall be...subject to such reasonable regulations as the library board prescribes in order to render its use most beneficial to the greatest number. The library board may exclude from the use of the public library all persons who willfully violate such regulations.” Wis. Stat. section 43.52(2).
